Registration

Meeting Room S428

07:35 – 08:35

**Breakfast Session - Case Competition (Session I)
Korean Complication Case Forum**

Chairpersons: Tae-Hoon AHN (Korea), Chi-kin CHAN (Hong Kong), Won-Heum SHIM (Korea)
Panelists/ Adjudicators: Alan Ka-chun CHAN (Hong Kong), In-Ho CHAE (Korea),
Ling-ling CHEUNG (Hong Kong), Seung-Hwan LEE (Korea), Sang-Ho Park (Korea),
Seung-Woon RHA (Korea)

**Cases listed in alphabetical order of presenters' surnames,
presentation sequences to be arranged in the beginning of the competition:**

What Situation could Happen when Proximal Lesion was Initially Stented -
In the Treatment of Long Lesion with Multiple Stent

Jihun AHN

Soonchunhyang University Gumi Hospital, Korea

Overcome of Demounted Non Inflated Stent from Stent Balloon by Rewiring into Non Inflated Stent

Won-Ho CHOI

H plus Yang Gi Hospital, Korea

A Coronary Stent Dislodged and Entrapped in Another Stent in Left Anterior Descending Artery

Dong-Cheol HAN

Joeun Gungang Hospital, Korea

What Kind of Artery should we Perform

Ji-Yeon HONG

Hanil General Hospital, Korea

OCT Finding of very Late Stent Thrombosis 11 Years after Cypher Implantation

Si-Hyuck KANG

Seoul National University Bundang Hospital, Korea

A Young Female Patient with Variant Angina Pectoris

Min-Chul KIM

Chonnam National University Hospital, Korea

Successful Stentablation in a Patient with non-ST Elevation Myocardial Infarction due to
Underexpanded Stent by Rotational Atherectomy

Yu-Hong LEE

Hankook General Hospital, Korea

Popliteal Pseudoaneurysm & Huge Hematoma as a Rare Complication of
Intravenous Thrombolysis in Intractable Deep Vein Thrombosis

Seung-Woon RHA, Won-Ho CHOI

Korea University Guro Hospital; H Plus Yang Ji Hospital, Korea

Prize Presentation for Case Competition (Session I)

Hands-on Workshops

Complication Management – PCI Bail-out Hands-on Workshop

(Sponsored by Terumo Learning Studio)

Date & Time	Workshop Description	Meeting Room
<p>Saturday 13 May 2017 09:00 – 10:00 10:30 – 11:30 12:00 – 13:00 14:30 – 15:30 16:00 – 17:00</p>	<p>COURSE DESCRIPTION</p> <ul style="list-style-type: none"> • Learn mechanisms of complication caused by medical devices in order to promote preventive actions <p>LEARNING OBJECTIVES</p> <ul style="list-style-type: none"> • Go through several complications of PCI and explain its causes and mechanisms. • Discuss the bail-out options in a small group and try out one of the options through hands-on with actual devices and simulation vessel models. • Identify appropriate solutions and prioritize it <p>PROGRAM FORMAT</p> <ul style="list-style-type: none"> • Open discussion (10 mins), Hands-on (40 mins) & Debriefing (10 mins) • Two stations per session <ul style="list-style-type: none"> o Station A: Stent Dislodgement & Balloon Dysfunction o Station B: Imaging Catheter Stuck & Diagnostic Catheter Kinked <p><i>(Limited number of participants, first come first serve. Pre-registration is required)</i></p>	<p>S429, Level 4</p>
<p>Sunday 14 May 2017 09:00 – 10:00 10:30 – 11:30 12:00 – 13:00 14:30 – 15:30 16:00 – 17:00</p>		

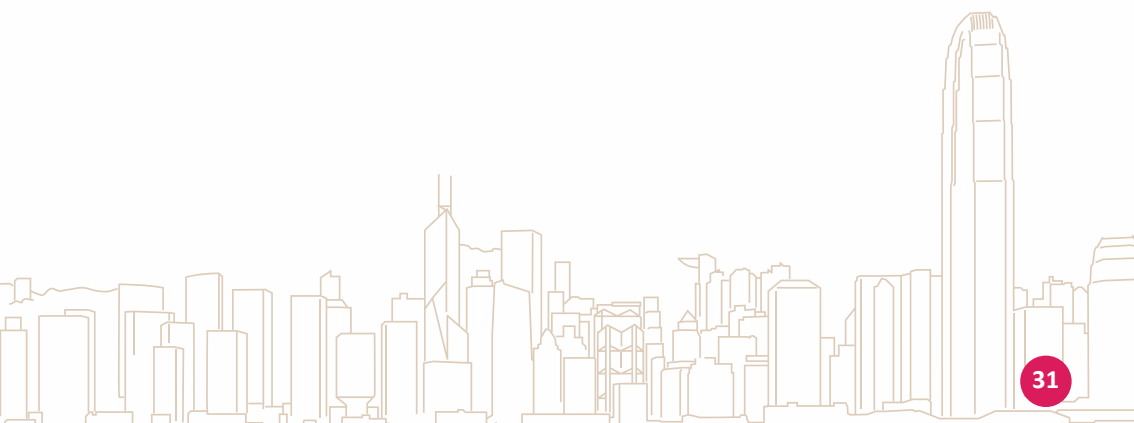

Hands-on Workshops

Complication Case on VR Simulation Intervention Workshop

(Sponsored by Medsim Healthcare Education Co. – Distributor of Mentice)

Date & Time	Workshop Description	Meeting Room
<p>Saturday 13 May 2017 09:30 – 17:00</p>	<p>This training workshop targets practicing physicians to learn complex interventional techniques by utilizing the Mentice VIST endovascular simulator with high fidelity and advanced VR technology.</p> <p>The demonstrated scenarios on structural heart intervention like TAVI, ASD, aorta dissection and perforation allow physicians</p> <ul style="list-style-type: none">● experience operator's procedural skills● train to use less time and fluoroscopy to perform the procedure	<p>S427, Level 4</p>
<p>Sunday 14 May 2017 09:30 – 17:00</p>	<p>The Mentice Simulator is very good for practice standard procedure and complication management for AMI case. It will help experienced physicians acquire appropriate skills to perform new procedures or learn to use new devices safely without putting patients at risk.</p> <p><i>(On-site registration is required at the room entrance (S427); Limited number of participants, first come first serve)</i></p>	

Hands-on Workshops

Innovative Technology for Mastering Complex Lesion and PCI Guidance

(Sponsored by Boston Scientific Hong Kong Ltd.)

Date & Time	Workshop Description	Meeting Room
Saturday 13 May 2017 10:00 – 12:00	Innovative technology for mastering complex lesion and PCI Guidance - Polaris IVUS software and complex case equipments demo hands-on.	S426, Level 4
Sunday 14 May 2017 10:00 – 12:00		

Various Kinds of Microcatheter for Different Types of CTO Lesion and Innovative Protective Apron

(Sponsored by Innotronik Hong Kong Ltd.)

Date & Time	Workshop Description	Meeting Room
Saturday 13 May 2017 10:00 – 17:00	The superior Turnpike and various Micro-catheters provide comprehensive back-up support for wire access in complex lesions and tortuous anatomies. The innovative protective Bloxr apron are made from XPF materials, and are capable of folding and washing. Giving extra safety.	S430, Level 4
Sunday 14 May 2017 10:00 – 17:00
